

Aloha and welcome!

Having lived in Volcano since 1980, I have seen and felt many changes. The Kilauea eruption in May 2018 was truly epic, and as a small business owner, everything changed and I questioned what to do next with Hawaii Volcanoes National Park closed indefinitely. Dedicated residents and business owners came together and Experience Volcano Hawaii was created.

We are very proud of the current low-impact model that has allowed us to evolve as a gateway community to Hawaii Volcanoes National Park, which serves hundreds of thousands of visitors annually by integrating meals and lodging into the community and its upland rainforest environment, rather than isolating them in a “resort.” We would like to keep that model and build on it.

Experience Volcano Hawaii and its participating members play a key role in interfacing with the Volcano community and Hawaii Volcanoes National Park to protect, preserve and connect visitors to the environmental wonders and perpetuate the unique cultural life of this exceptional destination. We are in the process of obtaining our Section 501(c)(3) non-profit status.

As a member of Experience Volcano Hawaii you will have a voice in Volcano’s future. Annual membership rates will be going up on June 1st, so join now to take advantage of the current annual rates. Our Ohana level of membership offers many possibilities at \$150 a year, that’s only \$12.50 a month!

Mahalo Nui Loa

President of Experience Volcano Hawaii
